

Handheld blowers are lighter in weight and easy to maneuver in light spaces. They are ideal for light-duty yard projects like blowing out flowerbeds and removing grass from sidewalks and smaller lawns. Backpack blowers provide added power to clear leaves, sand and debris from larger land areas.

HAND BLOWER

HZ-1310

| | |
|--------------------|----------------------------|
| Model | HZ-1310 |
| Average Air Volume | 0.13m³/s |
| Standard Power | 0.75 kw / 7500 rpm |
| Displacement | 25.4 cc |
| Weight | 4.3 kg |

HZ-1315

| | |
|--------------------|--------------------------------------|
| Model | HZ-1315 (Vacuum & Blower) |
| Average Air Volume | 0.13m³/s |
| Standard Power | 0.75 kw / 7500 rpm |
| Displacement | 25.4 cc |
| Weight | 5.4 kg |

BACKPACK BLOWER

| | |
|--------------------|----------------------------|
| Model | HZ-1320 |
| Average Air Volume | 0.24m³/s |
| Standard Power | 1.5kw / 7000rpm |
| Displacement | 52 cc |
| Weight | 8.3 kg |

HZ-1320

HZ-1321

| | |
|--------------------|---------------------------|
| Model | HZ-1321 |
| Average Air Volume | 0.3m³/s |
| Standard Power | 2.7kw / 6800rpm |
| Displacement | 63 cc |
| Weight | 10.5 kg |

| | |
|--------------------|----------------------------|
| Model | HZ-1322 |
| Average Air Volume | 0.33m³/s |
| Standard Power | 3.57kw / 7000rpm |
| Displacement | 75.6 cc |
| Weight | 10.5 kg |
